

March 19, 2010

Dear Ken Sawa,

The **United States Census Bureau** would like to thank Catholic Charities San Bernadino for your active involvement in our "Community Partnership Program". It is only through your continued support, that the 2010 Census can successfully reach those in our communities that otherwise may have been left uncouneted.

You have graciously allowed us to interrupt your daily schedules in order to support the 2010 Census as a **Be Counted/Questionnaire Assistance Center**. These centers will not only allow us to reach your constituencies, but also to share their trust in you as a light in the community.

With this support we anticipate a successful census count and an increase in resources available to our communities at every level- school district, city, county, state and federal. We give a special thanks to those organizations who have participated as testing centers and to those who will continue as training centers for the Decennial Census 2010.

If you have any questions or concerns, please feel free to contact me, or one of my qualified staff members at 909.475.3138, Monday through Friday between 8:00am and 4:00pm.

Appreciating your involvement,

A handwritten signature in black ink that reads "La Chelle Williams".
